Thanks Matt. We won't be able to get this into the FS/PP, but we have put in language to deal with newly identified riverbanks so that we won't be limited to only those discussed in the FS/PP.

**Subject:** T4 Slip 3 Riverbank

Hi Kristine,

I wanted to give you a heads up that we will be identifying another riverbank in the March Summary Report. This is a long known bank problem, but with Tom Gainer's retirement it was confused with the other bank issues at T4. PAHs on the bank as a result of pencil pitch operations. See blue markup on south side of Slip 3 and wrap around along the main channel on figure below.
